JAPAN EDUCATES MEN TO COMMERCE

Her Object is to Control the Trade of the Pacific, Says International Secretary Colton.

Dinner of Foreign Department of Bridgeport Y. M. C. A. at Stratfield Last Night Brings Interesting Facts Regarding Oriental Countries.

The Japanese government is educating thousands of its youths to commerce as in this country thousands are educated to the professions. The object of the Japanese is to control the trade of the Pacific. So said E. T. Colton, of New York City, International secretary of the foreign depart-ment of the Young Men's Christian Association, which now has 32 branch-es in thirteen countries and 82 secrees in thirteen countries and \$2 secre-taries abroad. Mr. Colton was a speaker at the dinner of the Foreign Department of the Bridgeport Y. M. C. A., which was held in the Stratfield, last night. The addresses were devot-ed almost entirely to the work that is being done by the foreign department being done by the foreign department in China and Japan. Lucien T. War-ner, presided.

Mr. Colton described the morals pre-vailing among Asiatic people, and the impure lives great numbers of Asiat-ics lead. It was true, he said, that not many of the British, Americans and Germans who go to China and Japan refrain from the same gross sins that are native to the population about

them.

An interesting speaker was C. V.

Hibbard. When the Y. M. C. A. established a branch with the Japanese Army in Manchuria the soldiers were hostile to the work. They thought because the men connected with the work were Christians that they were Russians.

The phonograph broke the ice. The soldiers listened to the strange instrument reeling out songs of their native land, and made up their minds that the Russian Spy theory would not hold water. This and many other stories of the work in Japan was related by Mr. Colton. Much prejudice was overcome when the branch became barber to the soldiers, cutting the hair of 160 men in a day sometimes. The Mikado was so pleased with the work of the association that he made it a donaand this did much to solidify the work in the affections of the people, as it was a very unusual thing for the emperor to contribute to a private

This evening, at Y. M. C. A. building C. T. Wang, a native Chinaman, P. L. Gillet, and Mr. Hibbard will speak upon the work in foreign lands.

NOTES ABOUT THE FIGHTERS

Grant, Hartford; second delegate, W.

F. Alcorn, New Haven.

The installation took place in the evening and was witnessed by the ladies of the Grand Army, the ladies of the G. A. R. and the Women's Relief Corps.

The installing of the world. O'Brien made against the black champion of the world. as great a hit with his home admirers as he did in Gotham when he fought that rattling good fight against Stan-ley Ketchel. Johnson has taken an

was very evident that Johnson is no match for O'Brien in straightaway boxing. He can hit harder, of course, and it was the only thing that saved him from a disgraceful hiding at the hands of a man two classes below him in point of weight.

in point of weight. in point of weight.

O'Brien's performance was startling, to say the least. That he could go out and carry the fight into the enemy's camp proved that he is not lacking in heart. He made Johnson back away and block—the very thing that he promised not to do in O'Brien's case. Johnson will never fight any other kind of fight you can depend upon kind of fight, you can depend upon that. The minute that he gets a rap he curls, and no amount of energy on the part of his opponent can make him come out and do an honest round's fighting.

BRADY MAKES AN OFFER. Billy Brady edged up to the ring after the fight and said: "Johnson, will

Brady wouldn't listen to such a proposition. Johnson would manage to win about four or five of those \$1,000 round bets, besides a slice from the club that would land the match. The men came to no understanding. O'Brien wants to fight Ketchel over there. Six rounds, he says. He thinks that it would be a repetition of the first six rounds of the last fight, and that would draw a banner house. Nothing has been done about a meet-

ing.

The report that the house had equal-led the McGovern-Nelson fight for money is a little bit exaggerated. Instead of a \$23,000 house it was more like \$18,900, and that's not hearsay. O'Brien got a little over \$8,000 instead of the reported \$12,000. But it was royal pay for eighteen minutes' puttering about with the gloves.

WELCH AND GOODMAN CLASH TONIGHT.

What promises to be one of the best ten-round bouts seen in New York in ome time will take place this evening at the Fairmont A. C., 137th street and Third avenue. Jack Goodman, the pride of Greenwich village, will hook up with Freddie Welch, the English crack. Fight fans think Goodman has a good chance to put the English-man away. Re is a hard hitter and as game as the proverbial pebble, and has been training for this affair for two weeks. Welch is in good condi-tion and expects to make Goodman hustle for his life.

RACE TRACK SOLD FOR BUILDING LOTS

(Special from United Press.) ville racetrack, once the horse and social center of Cleveland, will be sold and will be cut into building lots. From the time of its establishment in 1880 until a few years ago the track was famous in this part of the country both for its fine condition and the manner in which it was run. Its glory began to decline seven years ago when the town of Glenville enforced the law against pool selling. Its buildings were dismantled some time ago.
